

You Love Love

Bucks Fizz

I may care about you
But I know we'll never be
Like a sailor on an island
Who keeps looking back at sea
You love love, more than you love me

You love love, raging fires burning
And heads that keep on turning
To see a love in it's prime
Time moves on, from storm to gentle breezes
The dizzy feeling leaves us
It's a dream you're dreaming of

I may care about you
And I know we'll never be
Like a sailor on an island
Who keeps looking back at sea

You love love, more than you love me

When love is real it never dies
It has it's stages, other lives to live
If you're not afraid to give
But I can see it in your eyes
You're aching to be hypnotized again
I'd rather leave while we're still friends

I may care about you
But I know we'll never be
I thought I'd found a homeland
But I'm still a refugee
Cause you love love
More than you love me
