

Wear You Out

Buddy Guy

I had a '54 Stratocaster
They said it wouldn't last me my whole life
I ripped and tore and banged that thing
Until it couldn't play one more night

I'm gonna wear you out
Yes I'm gonna wear you out
I ain't slowing down
Until I wear you out

I had a seventy something El Dorado
I said it ain't never gonna stop
A 100,000 miles and 69 days
I felt that engine drop

I'm gonna wear you out
I'm gonna wear you out
I ain't slowing down
Until I wear you out

Well they say she'd been through many men
Said she couldn't be satisfied
Said she felt the ground move twice
Before I even hit my stride

I'm gonna wear you out
Yes I've been around
I ain't slowing down
Until I wear you out

I'm gonna wear you out
I'm gonna wear my guitar out
I ain't slowing down
Until I wear you out
Because I think I'm going to
Got to got got to
Wear you out
I'm gonna wear you out
It's going down
Until I wear you out
