## **Rock & Roll Woman**

## **Buffalo Springfield**

There's a woman that you ought to know And she's coming singing soft and low Singing rock n roll she's a joy to know Neath the shadow of her soothing hand I am free there just to make my plans

Dream of far away lands

Anything close at hand

And she will follow me why do you know Familiar places she's been by But if it seems she don't have to try

And tomorrow she's a friend of mine
And the sorrow I see her face is lined

She's no longer mine She's just hard to find
