

Close One Yesterday

Buju Banton

One more day in the struggle
Have to get up and juggle
You done know, want a little sugar inna de pan
Me nah see fi trouble, no man
Oh oh oh

Said I had close one yesterday
Jah put an angel over me, be strong
Hold a firm meditation
One day things must get better, don't you go down
Keep your head above the water
Say, one day things must get better, be strong

Said I had close one yesterday
Jah put an angel over me, be strong
Hold a firm meditation
One day things must get better, don't you go down
Keep your head above the water
Say, one day things must get better, be strong

The rich is wise in his conceit
But the fool with over standing search him out
Poor man mourn, the rich riches increase
Be not grieved, riches are not forever

Envy not the oppressor chokes none of his ways
Be not wise in his own eyes, only jah you must praise
Strive not with a man without cause
If he have done no harm, let by gone be by gone

Said I had close one yesterday
Jah put an angel over me, be strong
Hold a firm meditation
One day things must get better, don't you go down
Keep your head above the water
Say, one day things must get better, be strong

This nine to five is a joke
Compare to the pressure the minister say
The economy is getting better
Misleading the people

The mass still suffer on jah
Scarce benefit and spoils
Jah know that we feel it day
