

So society just can't let us be
Please don't be ashamed, we are not to blame
The future's ours to take, we will make mistakes
Scream this loud and proud, we will not back down

So let's go, we'll release the pressure
And a kick can only make it better
We can't, we won't surrender
We can't, we won't surrender

We're not scared 'cause our life in danger
Reality will only make it stronger
We can't, we won't surrender
We can't, we won't surrender

So tell me where are we laying your cemetery
Don't try to silence and bury me
Don't push me 'cause I won't go quietly
I let it die with dignity

Let them put us down, hope we're not around
They pray, we go away but we're here to stay
Time is on our side, our two worlds collide
These four words might help, just go fuck yourself

So let's go, we'll release the pressure
And a kick can only make it better
We can't, we won't surrender
We can't, we won't surrender

We're not scared 'cause our life in danger
Reality will only make it stronger
We can't, we won't surrender
We can't, we won't surrender

So tell me where are we laying your cemetery
Don't try to silence and bury me
Don't push me 'cause I won't go quietly
I let it die with dignity, dignity

Don't tell me where are we laying your cemetery
Don't try to silence and bury me
Don't push me 'cause I won't go quietly
I let it die with dignity

Tell me where are we laying your cemetery
Don't try to silence and bury me
Don't push me 'cause I won't go quietly
I let it die with dignity
