

## Vampire Waltz

## Burning Brides

we locked at the parking lot  
bruised at the bottom of a well  
and I'll see you in heaven babe  
or else I will see you in hell

you can claw and kick  
but it ain't really gonna do you any bit of good  
cause the last time I turned away  
oh how I wished that you would

well the only thing left in your life my love  
is down at the end of the bar  
relax and we'll go for a ride my love

awake in the stars

you faint at the sight of blood  
at least that's what I used to think  
but I know you much better now  
and know that you just like to drink

you can climb your way  
out of every fucking hole that you have ever dug  
but you can't climb out of your grave  
once all the damage is done

well the only thing left in your life my love  
is down at the end of the bar  
relax and we'll go for a ride my love

awake in the stars

(hold on lifeless boats  
everyone's a swimmer  
play along the safety lines  
climb aboard with the sinners)

it's all a waste of time

it's all up in your mind
