

Kids with Computers

Busted

Standing at the Albert bridge I can see your face
Wondering how did this become such a dirty place
I can see it when I don't wanna believe it
Another one down the neck and I'm undefeated

Find another day that breaks my heart
Nothing I can say is ever enough for you
When I look around think I see the future
It's just kids with computers
It's just kids with computers
It's just kids with computers
It's just kids with computers

Nothing I can think of now really makes much sense
Don't know where I'm going now don't know where you went
I can see it but I don't wanna believe it
Another one bites the dust and your undefeated

Find another day that breaks my heart
Nothing I can say is ever enough for you
When I look around think I see the future
It's just kids with computers
I think I see the future
It's just kids with computers
I think I see the future
It's just kids with computers
I think I see the future
It's just kids with computers
I think I see the future
It's just kids with computers
It's just kids with computers
I think I see the future
