This is my harbour, where I feel free Where once the fishermen sailed out to fight the sea To feed their children, to raise them well To make me what I am, I'm proud to tell

I will never leave you, my good old Volendam
The place where I belong
Only for you I sing this song
I will always love you
Until my dying day
I'm proud that I can say: "My Volendam"

Old seadogs gathering by the harbourside To recall the early days, (the storms that they Survived) They were strong together, stronger than the sea

I will never leave you, my good old Volendam
The place where I belong
Only for you I sing this song
I will always love you
Until my dying day
I'm proud that I can say: "My Volendam"

They built this paradise where I feel free

I will never leave you, my good old Volendam
The place where I belong
Only for you I sing this song
I will always love you
Until my dying day
I'm proud that I can say: "My Volendam"
I'm proud that I can say: "My Volendam"
