

# Stranger

Cacophony

Don't strike in fear, so hard to see  
Yeah the monsters in my mind they're eating all my time

There's a stranger in your dreams  
Like a shadow in the night  
I'm a stranger in your dreams  
And there's nowhere you can hide

I can't get out nowhere to go  
No future here, I'm hard as stone

There's a stranger in your dreams  
Like a shadow in the night  
I'm a stranger in your dreams  
Stranger  
And there's nowhere you can hide  
Nowhere you can hide

You lie awake lost in your dream  
There's no escape away from me  
Stranger in your dreams  
Stranger  
Like a shadow in the night  
Shadow in the night  
I'm a stranger in your dreams  
I'm a stranger  
And there's nowhere you can hide  
Nowhere to hide
