Keep Eleven On

Well I surely can show you Where you can go stuffing the rest of your memories Another downer for the really down We used to run around the secret cemetery It had a chemistry you rarely find This glue can keep it all together But it can break like a glass when you blink at it, just like t hat But we keep eleven on, just this once

Someone has to be there in case it's on for real Can never spend a day without the real appeal And maybe b-baby it's as real as a clock So let it come, and let it come, and let it come, and let it ro ck

Well I haven't come this whole way just to put you down It's been a long and winding day The superglue can keep it all together now But there's a price that you will have to name This glue can keep it all together But it can break like a glass when you blink at it, just like t hat And we keep eleven on, just this once Keep it on, eleven on, keep it Keep it on, eleven on, keep it on Keep it on, eleven, eleven on

Someone has to be there in case it's on for real Can never spend a day without the real appeal And maybe b-baby it's as real as as clock So let it come, and let it come, and let it come, and let it

Someone has to be there just in case it's on for real Can never spend a day without the real appeal And maybe b-baby it's as real as as clock So let it come

Keep it on, eleven on, keep it Keep it on, eleven on, keep it on Keep it on, eleven, eleven on
