

## Obey Me...

Callenish Circle

Obey me, seduce me and fucking please me  
Kneel down, now touch me, adore me and serve me  
Never forget my wish is your command  
What I want is what I get... is what I get  
My final warning  
I'll hunt you down  
I hear you, I feel you, I fucking smell you  
Don't you dare to run away  
My final warning-shot, you're begging  
Your begging turns me on... turns me on  
My final warning  
I'll hunt you down  
I hear you, I fucking feel you, I smell you  
Don't you dare to run away  
Please come out  
Come home with me  
I'll never touch you anymore  
I can't be alone tonight  
It will be the same as before  
Don't hate me, call me  
Come see me  
Don't be afraid  
Where are you, can't fucking see you, I seek you  
You can't hide away from me  
My final warning  
I will shoot you down
