

# No More Bullshit

Cancer Bats

Chokehold every lost day that's forgotten  
Ice age freezing over every last option  
I'm just carrying on  
Smoke stack burning up everything rotten  
Resist just getting caught at the bottom  
I know I've just begun  
I'll break free from this concrete  
Hijack every minute I can  
Time  
Like diamonds strangled from coal  
No more bullshit  
Time  
Like diamonds strangled from coal  
Stay focused

Countdown grains 'til you enter oblivion  
Cinder blockade yourself in a dark room  
I'm just carrying on  
Hold off following every lost action  
Stock pile, stronghold, withhold your goals  
I know I've just begun  
I'll break free from this concrete  
Hijack every minute I can  
Time  
Like diamonds strangled from coal  
No more bullshit  
Time  
Like diamonds strangled from coal  
Stay focused

Analogue breaks this concentration  
We face annihilation  
One chance to get it wrong  
Life is a marathon
