

# Scared to Death

Cancer Bats

Hold me closer  
If you'd kill for me I'd die for you  
Ask me now, I'd say "I do"  
If you'd kill for me I'd die for you

I've never seen these things so clear  
Stared in the face of the things I fear  
Petrified, I lost my breath (I'm scared, I'm scared)  
Stuck on the thought of having nothing left (I'm scared, I'm scared)

I've never seen these things so clear  
These words I speak I'm being so sincere  
Electrified straight from the heart (I'm scared, I'm scared)  
Caught on the brink of being torn apart (I'm scared, I'm scared)  
)

All the facts that I've been shown  
I'm scared to death of dying alone  
Hold me closer than I've ever known  
I'm scared to death of dying alone

I wanna kill everything I fear  
I wanna kill everything I fear  
I wanna kill everything I fear  
I'm scared, I'm scared  
I wanna kill everything I fear  
I'm scared, I'm scared  
I wanna kill everything I fear  
I'm scared, I'm scared  
I wanna kill off all my fear (I'm scared, I'm scared)

All the facts that I've been shown  
I'm scared to death of dying alone  
Every chance that I've been thrown  
I'm scared to death of dying alone

Everyone's screaming, everyone's crying  
If I didn't feel it you know I'm lying  
So hold me closer than I've ever known  
I'm scared to death of dying alone

[Chorus]
