

Believe in It

Candlebox

One thing in this world we need son
It's love and patience
I learned more as I got on
Believe in it.
There's something in these eyes you see huh?
There's something in my life that beats on,
You can share in what I know
You can share in all I know

Believe in this
If there's something in this world you want son
Well you gotta take it
But something free ain't ever owned no.
Believe in it.
Was something in your head abandoned?
Was something in your heart, a reason?
You got to keep on keepin on,

I wanna take you higher
Believe in this there ain't no mistaken
You got to make it your own (2x)

Ain't nothing in this world you need more
Than love & patience.
You'll learn more as you get on
Believe in it.
There's something in your head that's reeling
There's something in your heart you're feeling,
Its gonna keep you keepin' on.

I wanna take you higher
Believe in this there ain't no mistaken
You got to make it your own (2x)
