## **Worshipper - Urban Mix**

**Canton Jones** 

[Verse 1:] They see me smiling when I hit the street And laugh with everyone I meet They see me calm when trouble comes my way Cause I know that it will be ok And every single day I wake up, I lift up my hands and I praise you Cause I know that you will give me life to live And then, grace and mercy follows so I can do the will And I'm happy, but to some that's a mystery yeah [Chorus:] They don't know that I'm a worshipper And they don't know that I'm in love with you [x2] [Verse 2:] They ask me what is a successful man It's the man that will give you his hand And you do whatever you want to do yeah Cause your love will always bring him through And every single day I wake up, I lift up my hands and I praise you Cause I know that you will give me life to live And then, grace and mercy follows so I can do the will And I'm happy, but to some that's a mystery yeah [Chorus] [Rap:] Now, worship is my attitude every time I wake up On my knees, hands raised like I'm a victim of a stick up But, I love to do it, that's why I'm praisin And if you ain't praisin, then you so crazy Worship has kept me sane If every man was a dog, then he kept me trained Allows me to smile in the midst of the pain Dear God my umbrella in the midst of the rain And so the coolest thing in the world to be Is a man that's in love with the GOD He, she, me cool with the worship You know me brother Weddin band left hand, pinkie ring on the other I'll worship in an elevator, worship on a respirator Worship in front of my haters, candy worship now or later Or in a pair of jeans and a button down In the suburbs or we can take it down town

[Chorus]
