

Blood, Sweat And Fears

Capdown

Never gonna live your way
We're never gonna think that way
Cos there's far too much at stake
And dreaming don't just make it happen
Never gonna live your way
We're never gonna think that way
Cos it's only those who know
who stand the pressures of life

And I don't expect nothing
Without hard working
You gotta turn and face it if you wanna make it
And I don't work with no one who can't embrace this
You gotta turn and face it if you wanna break this

It's time to think about the rest of your life
Cos there will come a day when this has gone away
You got to think about the rest of your life
There will come a day to rise again

They're gonna take it away
And then you're left with no one
You got to take it away
