

Capone Bone

Capone-N-Noreaga

(House of hits y'all... for the ladies... Capone Bone... Marley Marl)
If you want it you can lick from the front
If you want it...

I like your stockings, stretch socks even your Reeboks
Thug you out, take you on tour, learn all the weed spots
We can sip wine, bump and grind on the slow-mo
But on the d-low I heard your man was a homo

We can combine just like two five and DoLo
Tell me where to put it like solo
Meet me at 702 I like your steelo
Now boo face it, you're bangin' to your ankle bracelet

I went against the grain when I said I'd never taste it
You work all day come home ready for foreplay
Your favourite dish, harmony grits and fish saute
You love a thug boo, highly impressed by my tattoo

Slim cut, walk with a strut keepin' it natural
Your physical frame is like a Jada Pinkett
I like to hear you moan, spank it grab your X and O anklet
Freak off

"If you want it you can lick from the front
If you want it
If you want it you can lick from the front"

Sick and tired of your wannabe thug he got you heated
Knowin' that you need it but he's still afraid to eat it
Friday night you tell him that you out with the girls
But you're honin' in my world gettin' bent till you hurl

I got the fireplace, bearskin rug so kick your feet out
Hit me on a hit bay hundred I got the weed out
Hydro keep it on low now bust the weed out
Slide off the DKNY's so I can eat out

Jump inside a jet black 5 or watch you speed out
Adrenaline got you open like a stack of Benjamin's
Then back to the Ben agains to eatin' pasta with Dominicans
Eat it up

Real niggers in the front, fake niggers in the middle
Live niggers in the back say just a little
Real niggers in the front, fake niggers in the middle
Live niggers in the back, shake just a little...
