Gimme the power, power, move it on move it on
It's the power, higher
In your soul all night
Now gimme the power, power, move it on move it on
It's the power, higher
Set your fight (in your life)
Now gimme the power, power, move it on move it on
It's the power, higher
In your soul all night
Now gimme the power, power, move it on move it on
It's the power, higher
Set your fight alight

I get stronger
When you're next to me
Feel the power
In your soul all night
Let me live free
And I'll be the one
Can you feel it
Can you see the power movin'

Gimme the power, power, move it on move it on
It's the power, higher
In your soul all night
Now gimme the power, power, move it on move it on
It's the power, higher
Set your fight (in your life)
Now gimme the power, power, move it on move it on
It's the power, higher
In your soul all night
Now gimme the power, power, move it on move it on
It's the power, higher
Set your fight alight
Set your fight alight

Take the power

If you feel the need

Flying higher

Now you're free at last

I'll let you live free

I'll let you be the one

Can you feel it

Can you see the power movin'
