## I Feel

**Captain Jack** 

I feel all your good vibrations, yeah Deep down my soul it creeps I feel all your strange emotions, baby Give into me - into me, yeah Huuh, I feel

I feel time to be mine You feel and that is real My love endless, without a limit I feel, feel so close to you To that dream deep down In my heart I care for you That's what I feel

I feel all your good vibrations, yeah...

I feel, yeah You set my soul on fire And all my world seems brighter And now it's easier to be with you So hold me closer, don't you ever Let me go

I feel all your good vibrations, yeah...

I feel that vibe by your side so real All I feel is love, timeless, without a limit I feel, feel so close to you Love is all around In my soul I burn for you That's what I feel

I feel all your good vibrations, yeah...
