

# Always

Keith Caputo

and if my plane happens to crash  
know in your heart that ive always loved you  
and if my plane happens to crash  
know in your heart that i will always care  
know that ill always love you

its getting lonely  
on in the rain  
then you'd believe  
that its getting lonely

and if we go down, dont be afraid  
know that ill always love you

and if my plane happens to crash  
my head is held high  
know that ive always cared for you  
know that i will always love you, love you, love you, l o  
v e

its getting lonely  
on in the rain  
then you'd believe  
that its getting lonely

and if we go down, dont be afraid  
know that ill always love you always love you
