

# Blue Mountain River

Cara Dillon

Blue mountain river, if only for a while  
Take me to the river, lay down by your side  
The world is full of madness and I find it hard to smile  
Take me where you're going and I'll be right by your side

Blue mountain river, comfort me a while  
I'll follow down the river, follow you till night  
I hasten to your whispers, you dance in time to mine  
We'll stay awake together watching the silver in the sky

Blue mountain river, I want to rest a while  
You're changing my reflection and the seasons in my mind  
Let these days go on forever, I'll leave in my own time  
Take me where you're going and I'll be right by your side

Blue mountain river, I went there for a while  
I listened for an answer and I found it deep inside  
When I'm lost behind the shadows and I want to run and hide  
My blue mountain river is there right by my side
