1. You undo me
 I'm a happy mess
 My dress slips to the floor
 And I pose, what an amateur
 To be like this! "exposed"

You deny the other side of me
That strips good love away
And you kissed my mirror reflection
When I looked at me today

- R: When you look at me the way you do
 My fingers tingle
 I can't breathe until we're skin on skin
 When you look at me the way you do
 My life moves in perfect motion
 You're doing all the heavy lifting
- 2. Worlds collide
 I see a side of you
 I never saw before
 We can work it out, let's talk it out
 I want to know you more

Just decided
That I'd like to side with you
Oh every time
When you ask me how I'm feeling now
You know I'm feeling fine

- R: When you look at me the way you do...
- *: Oh, look at me the way you do
 Look at me the way you do
 Look at me the way you do
 Oh, look at me the way you do
 Look at me the way you do
 Look at me, look at me the way you do
- R: When you look at me the way you do...
- *. Oh, look at me the way you do...

When you look at me the way you do ${\rm My}\ldots$
