Fever

Cascada

I'm not a beauty queen Travelling in a limousine I'm a girl but don't call me baby

Who the fuck is VIP? Living life in luxury I don't care so just call me crazy Can you give it out?

Don't stop just take it to the limit Watch me boy it's spinning around this time Hush, hush, running to the night, feel alive

I just can't get enough, when I'm with you 'Cause your fever, makes me feel so good Turn it up boy you make your move See I'm burning but it feels so good

Can't get enough when I'm with you You got fever, but it feels so good Turn it up baby make your move Keep me burning 'cause it feels so good

I don't need no Superman Trying to tell me who I am Know it all's a driving me crazy

Nothing ever is for sure I can't take this anymore All I want is yes or no baby Can you give it out?

Don't stop just take it to the limit Watch me boy it's spinning around this time Hush, hush, running to the night feel alive

I just can't get enough, when I'm with you 'Cause your fever, makes me feel so good Turn it up boy you make your move See I'm burning but it feels so good

Can't get enough when I'm with you You got fever but it feels so good Turn it up baby make your move Keep me burning 'cause it feels so good

It's so hot, do it, do it real good Can't stop, do it, do it real good It's so hot, do it, do it real good Can't stop, do it, do it real good

It's so hot, do it, do it real good Baby, you got fever Can't stop, do it, do it real good Baby, you got fever It's so hot, do it, do it real good Baby, you got fever Can't stop

I just can't get enough, when I'm with you 'Cause your fever, makes me feel so good Turn it up boy you make your move See I'm burning but it feels so good

Can't get enough when I'm with you You got fever but it feels so good Turn it up baby make your move Keep me burning 'cause it feels so good
