

# Jaw Drop

Cash Cash

Last night at the party  
I was looking for somebody who I could take home  
Was cool cool made a move  
I was think maybe you could lose  
Lose all control

Now you're all over me  
One thousand degrees  
And I can barely breath

She makes my jaw drop  
In her low rise jeans  
She makes my heart stop  
Talking dirty to me  
You know it don't stop  
When we're under the sheets  
She makes my jaw drop

She makes me jaw drop  
If you know what I mean  
She makes my heart stop  
Talking dirty to me  
You know it don't stop  
Like a loving machine  
She makes my jaw drop

She's down right getting naughty  
Moving like she ain't nobodys girl  
Just dancing alone

So let's dance dance  
No romance  
Tear it up  
And the we could do it right  
We'll go all night

With your hands touching me  
One thousand degrees  
And I can barely breath

She makes my jaw drop  
In her low rise jeans  
She makes my heart stop  
Talking dirty to me  
You know it don't stop  
When we're under the sheets  
She makes my jaw drop

She makes me jaw drop  
If you know what I mean  
She makes my heart stop  
Talking dirty to me  
You know it don't stop  
Like a loving machine  
She makes my jaw drop

You're crazy girl

Who taught you how to get down like that?  
Damn

Tight jean  
Beauty queen  
If any y'all touch her  
I'm a make a scene  
She's leaving with me

I got no doubt she wants it know  
Kiss her like there ain't no one around  
It's time to get down

She makes my jaw drop  
In her low rise jeans  
She makes my heart stop  
Talking dirty to me  
You know it don't stop  
When we're under the sheets  
She makes my jaw drop

She makes me jaw drop  
If you know what I mean  
She makes my heart stop  
Talking dirty to me  
You know it don't stop  
Like a loving machine  
She makes my jaw drop
