

# Free Me

## Cast

Give me some time to be me  
Give me the space that I need  
Give me a reason to be  
Give me some time to be  
I've got to open my eyes to see

Give me the air that I breathe  
Give me the taste that is sweet  
Feeding a space that's in me  
Just free me, just free me, just free

Out on a ledge can make it  
Out of my depth can face, face it, face it  
Livin' this life ain't easy  
Living with dreams that free, free me, free me

So give me the words that fall free  
Give me the song that I sing  
Listening hard to hear me  
Give me some time to be  
You've got to open your eyes to see

Give me the love that I need  
Show me the light that blinds me  
Just bring it all closer to me  
Just free me, so free me, so free

Out on a ledge can make it  
Out of my depth can face, face it, face it  
Livin' this life ain't easy  
Living with dreams that free, free me, free me, free

I wonder why you're so far away  
I wonder why you're so far away  
So far

Free...

As wide as the ocean in me  
As high as the sky above me  
As deep as the earth beneath me  
It's free, it's free, so free

Out on a ledge can make it  
Out of my depth can face, face it, face it  
Livin' this life ain't easy  
Living with dreams that free, free me, free me, free
