

## Ultra Earth

### Cathedral

Bright red mist shrouds the world - streets in flames,  
Robots taking control - human slaves  
Auto-mechanical man - human clone,  
Technological plan - just beginning  
Withered sun overhangs - moon on fire  
Universe in reverse - Ultra Earth  
Clockwork hearts, plastic souls - breeding fast,  
Remote control embryo - manufactured  
Cybergod satellite - looking down,  
Thought police film your mind - live transmission  
Withered sun overhangs - moon on fire  
Universe in reverse - Ultra Earth  
See earths fate through the mist of a burning pyre  
come with me, the inferno will take us higher.
