## **Cry For Me**

## **Catherine Feeny**

Cry a little for me when you hang your head Why waste your time just feeling sorry for yourself After all of the pain you caused to somebody else Yeah, you could cry for me

I have cried for you when it's late at night And I know that I did not give you all that I could Yeah, I have cried for you

Smile a little for me when you think of what we had It ain't no use trying to forget the past When you could smile for me I have smiled for you

Die a little each day that you live Each gift that you give That you might learn to truly live You die a little death
