Strange As It Seems

Catie Curtis

Strange as it seems, I don't want to leave Crazy dream been living in my bones When I've got no words to spare Gotta be love that will take me there Complain, complain: sometimes all I do Strange I know, I don't want to go

Well the love lives underneath
Only rises when I bleed.
There were people here tonight
They've all gone home now
They're sleeping tight.
Strange as it seems, I don't want to leave.
