

That C.I.T.A. Feeling

Caught In The Act

Got that feeling
got that C.I.T.A. feeling for you
here I am I'm back again (back again)
all the time I wonder is it still the same
(still the same)
get the call two minutes more
falling to that vibe that's coming through
that door
it's all unreal I can't say how I feel
excuse me fellas won't you help me explain

It's tha C.I.T.A. feeling
we're sound that's so
appealing
it's the crew that's bringing
down the ceiling
and they won't stop the C.I.T.A.
feeling that's in you

Tell me girl does it turn you on make me strong
do you see the someting special
going on in your lives
let me take you on a magic ride
eith all of the emotions that you hold inside
it's no big deal 'cos we know how you feel
excuse me ladie won't you let us explain

Repeat chorus

C.I.T.A. we've got that feeling that feeling
C.I.T.A. we've got that feeling that feeling
C.I.T.A. we've got that feeling that feeling

arrived you should try
It's all unreal I can say how I feel
Excuse me fellas won't help me explain
