

Nights

Cavo

I know when it's time to go
And I know when nobody knows
Try to lay your money down
Lay your money down
I know when it's time to leave
And I know what you want to be
Try to lay it on the line
Lay it on the line

Cause it's what you want
Then what you get
My lie is left behind this cigarette
Even when the night's so long
You won't come down

Know when it's time to go
And I know what you want to know
Try to lay your money down
Lay your money down
I know when it's time to leave
Cause I see what nobody sees
Try to lay it on the line
Lay it on the line

Cause it's what you want
Then what you get
My lie is left behind this cigarette
Even when the night's so long
You won't come down
It's time to go home

She won't play in the sun
Lost in the shadows
She won't play in the sun
Lost in the shadows

If it's what you want
Then what you get
My lie is left behind this cigarette
It's a way to live your life with no regrets
My lie is left behind this cigarette
Even when the night's so long
You won't come down
Even when the lights are on you won't come out
Come home
