

# Take It Out On Me

Chairlift

You're here  
Early but here  
On a morning so clear and blue is fate up for debate?  
And does my love only count if it's proved?

Forget forgiveness  
Forget all the rules  
Just please don't do it here  
Bring on the fire  
Because business is cruel  
And Sophie's got somewhere to be

I'm not afraid so take me outside  
I know what you're here to do  
Shotguns up familiar sleeves  
Undercover but nobody's fooled  
Got no time  
No time for goodbyes  
Oh god just let my love survive

Forget forgiveness  
Forget all the rules  
Just please don't do it here  
Bring on the fire  
Because business is cruel  
And Sophie's got somewhere to be  
Take it out on me  
Take it out on me

Forget forgiveness  
Forget all the rules  
Just please don't do it here  
Bring on the fire  
Because business is cruel  
Just please don't do it here  
Take it out on me  
Take it out on me  
Bring on the fire  
Because business is cruel  
And Sophie's got somewhere to be  
Take it out on me  
Take it out on me
