

## Cloud 9

### Chamillionaire

Coming down clean, like I'm coasting on cloud nine  
Cloud nine, I ride so clean  
Hol' up, some people don't like me, must be cause I'm riding so clean  
Like I'm coasting on cloud nine, cloud nine, I ride so clean  
Hol' up, some people don't like me, must be cause I'm riding so clean  
Like I'm coasting on cloud nine, cloud nine, I ride so clean

I know, I'm a master at chick removal, but I never trick cause I'm living frugal  
You a boss that ain't got a boss then these bossy people don't get to boo you  
See it's normally business as usual, never needed no one's approval  
But it ain't under they information, want that they need to take a trip to Google  
Pick her up, now your boo is missing  
Tellin' me I'm her new addiction  
Ladies lovin' my old school  
Got me feelin' like New Edition  
Maybe I should go buy another one just so I can have a new addition  
I would let em all count em up but ya'll know my haters never knew addition  
I ain't into no superstition  
I'm just into new coupes with stitchin'  
No degree but you'll notice we,  
Done spent more today than your school admission  
Got the money then ladies came and they'd swear to God that I'd lose my vision  
But that's somethin' you'll never see, like a Hindu Muslim and Jewish Christian

You got gossip talk you can't wait to text  
I got contracts I can't wait to fax  
That's why I got her so steamy, she should jump in my pool and go take some laps  
Taught you losers how to get the chips  
These losers like, "I can't relate to that"  
If you would have listened when I taught you that,  
Then you mental midgets would have made the stacks  
Just admit it, you were born a hater  
If you're tryna say that I shouldn't have it  
I'm ridin' spokes and if you're not a broke  
And not takin' notes then get a basic tablet  
Got her sittin' on special fabric  
She lookin' like she just left a pageant  
She in the whip inspectin' gadgets  
While you watchin' us like Inspector Gadget  
Don't hold your breath, because I know you're waitin'  
The city's somethin' I'm overtakin'  
Captain Save Hers go call the pigs but I dissapear before they get the bacon  
Not a hero, you're so mistaken  
If you're Superman then just throw your cape in

Cause the villain's back and I'm given that young multi-millionaire motivation
