

Mood

Chanté Moore

I don't need anything,
'cause when I'm close to you,
something happens to me.

Well, it doesn't take, candlelight, baby,
and it doesn't take, romantic music, no,
the flowers you bring, make me smile but oh baby,
I don't need the violins, as the moon shines down and then,
well, it don't take much for me to do, it just takes you.

And I am in the mood, boy it only takes you,
and I am in the mood, your love puts me in the mood,
and I am in the mood, boy it only takes you,
doesn't take much for me to get in the mood,
(I'm in the mood).

Well, it doesn't take, raindrops from the sky,
and it doesn't take, sunrise in the spring,
all of these things, are so beautiful, but,
what I found, when you're around me,
music plays, the sun is rising,
rain falls and flowers bloom,
when I'm with you (when I'm with you).

And I am in the mood, boy it only takes you,
and I am in the mood, and I am in the mood,
and I am in the mood, boy it only takes you,
doesn't take much for me to get in the mood,
(I'm in the mood).

I don't need the violins, as the moon shines down and then,
well, it don't take much for me to do, it just takes you (just
takes you).

And I am in the mood (I am in the mood), boy it only takes you,
and I am in the mood (I am in the mood), just takes you,
and I am in the mood, boy it only takes you,
doesn't take much for me to get in the mood,
I'm in the mood.
