

# One Day

Charice

One day, one day, one day

They're not gonna keep me down  
They're not gonna shut me out  
They're gonna do what they do, I'll do me  
I'm moving against the crowd  
I'm drowning out the doubt  
They're gonna do what they do, I'll do  
Something original, be unforgettable  
They're gonna know my name

(One day) I'll make you a believer  
(One day) I got this all I need is  
(One day) Don't try to tell me I can't (tell me I can't)  
(Right now) I'm writing the future  
(Watch out) Won't stop I'm a mover  
(One day) You're gonna know who I am  
I will fly high and free  
It's my fate wait and see one day

I've been afraid before,  
To reach for something more  
But now I see that it's mine, I'll take it  
Just go ahead and try,  
You're not gonna change my mind  
There's no such thing as too late  
Yeah!

(One day) I'll make you a believer  
(One day) I got this all I need is  
(One day) Don't try to tell me I can't (tell me I can't)  
(Right now) I'm writing the future  
(Watch out) Won't stop I'm a mover  
(One day) You're gonna know who I am  
I will fly high and free  
It's my fate wait and see

I'm on a mission, no longer listening  
To anyone that says don't try  
Sometimes you feel it, deep in your spirit  
It's like a fire that won't die

(One day) Wait and see  
(One day) Ooh  
(One day) Just wait and see

(One day) I'll make you a believer  
(One day) I got this all I need is  
(One day) Don't try to tell me I can't  
(Right now) I'm writing the future  
(Watch out) Won't stop I'm a mover  
(One day) You're gonna know who I am (know who I am)  
I will fly high and free  
It's my fate wait and see one day

One day, one day  
One day, one day, one day
