

# Velvet Dreaming (Luv)

Charli XCX

Yeah, I got the time, yeah, I got the time  
Yeah, I got the time to spend on loving, spend on loving you  
Spend on loving you, spend on loving you

I got the time to be your friend  
If I get to hang with you every day  
Sitting on the ground, drinking champagne

Flying round the world, private plane  
You're like the best kind of Novocain  
Super ease, take the pain away

Nice kinda numb, yeah, it a-okay  
Back of the car, I will stay smoking  
Stay hot like fire  
You are my one desire  
But you will never tire  
Because you always keep on taking me higher

Super sweet, like a French bon-bon  
Super story, how you gon-gon  
You got my heart dressed up like a debutante  
You're the apple of my eye and the only one

Yeah, I got the time, yeah, I got the time  
Yeah, I got the time to spend on loving, spend on loving you  
Spend on loving you, spend on loving you

I got the time, I got the time  
Yeah, I got the time to spend on loving, spend on loving you  
Spend on loving you, spend on loving you

I like it when you kiss the back of my neck  
I like it that you show me super respect  
You're not the kind of guy I think I'll regret  
You're not the kind of guy I'm gonna forget  
Sparkle in your heart always glows in the dark

Brings in the star when we walk through the park  
Hand in my hand, toes in the sand  
Super ultra love for my man

Yeah, I got the time, yeah, I got the time  
Yeah, I got the time to spend on loving, spend on loving you  
Spend on loving you, spend on loving you
