

# Breach Of The Peace

Charlotte Church

Maybe it's the easiest way  
If we just call it a day  
No more phone calls  
That lead to late night brawls  
We don't even have to pretend  
That we'll try to stay friends  
We'll just walk back clothes  
We left in each others' homes

And say it's nice to have known you

There's no love left in this machine  
We both stopped operating months ago  
You know this cut is going to hurt like hell  
But it's what we need  
Before we cause a breach of the peace  
Before we cause a breach of the peace

I could colour your lips  
With a kiss  
But it hurts too much  
Boy you're driving me straight off a cliff  
So let me fall  
I don't want to know that I won't be awake  
When you get home  
If I've got you  
Then my God I want you

There's no love left in this machine  
We both stopped operating months ago  
You know this cut is going to hurt like hell  
But it's what we need  
Before we cause a breach of the peace  
Before we cause a breach of the peace

You won't let me go  
You won't let me love  
Do you need me?  
Do you even see me?

There's no love left in this machine  
We both stopped operating months ago  
You know this cut is going to hurt like hell  
But it's what we need  
There's no love left in this machine  
We both stopped operating months ago  
You know this cut is going to hurt like hell  
But it's what we need  
Before we cause a breach of the peace  
Before we cause a breach of the peace

(I hope that someday  
You know I never meant any harm)
