

Dream the Night Away

Cheap Trick

It's 5 o'clock, I think I'll find my way downtown
I try to turn my mind off, but I don't know how

Let me dream the night, dream the night away
Don't make me dream the night, dream the night away

How can I help but hate the way I feel?
Make sense of memories that won't make them real?

Whoa!

Dream the night, dream the night away
Dream the night, dream the night away

Sometimes the love you make can break your heart
Just when it seems so easy, then it all falls apart

I feel so helpless when I think of you
I never said those things I thought you knew

Hey!

Dream the night, dream the night away
Dream the night, dream the night away

(You got to dream the night)

Dream the night, dream the night away
Dream the night, dream the night away

(Yeah, yeah, yeah, yeah)
