

If It Takes a Lifetime

Cheap Trick

If you think my name
What gives you the right
Couldn't take the place
To be with you tonight
When I fall asleep
And I dream all night
No matter where I go
Can't you see
What you're doing to me

All I want to do
Is just be with you
If it takes a lifetime
I'll wait for you
All I want to do
Is just be with you
If it takes a lifetime
I'll wait for you

Get closer
Closer to me
Got stories I can't speak
Got secrets I can't keep
Can't hide what you're doing to me

All I want to do
Is just be with you
If it takes a lifetime
I'll wait for you
All I want to do
Is just be with you
If it takes a lifetime
I'll wait for you
I've had better days
But I'd never wait so long

When I fall asleep
And I dream all night
No matter where I go
Can't you see
What you're doing to me
Sleep awake
All day all night
I dream of you
But I can't believe its true

All I want to do
Is just be with you
If it takes a lifetime
I'll wait for you
All I want to do
Is just be with you
If it takes a lifetime
I'll wait for you
I've had better days
But I'd never wait so long
