Bye bye, love, goodbye See you on the other side Bye bye, love, goodbye I'll see you on the other side

Hurry on, home to bed O Claire, you're much younger Than I'd ever hoped to be

O Claire, it's so lonely when you're not there Anyone can take me where The places, they weren't there, O Claire

I hear your heart from here But now you're much stronger Than I'd ever hoped to be

I swear, gone a place beyond compare So lonely when you're not there I can step to watch and stare, O Claire

Just between the two of us Something 'tween the two of us Is more than just the two of us Just between the two of us O my love, goodbye O my love, goodbye

Hurry on home to bed Claire you're much stronger Than I'd ever hoped to be

O Claire, the nights when you're not there Is more than I can bear Something only we can share, O Claire

Just between the two of us Something 'tween the two of us Is more than just the two of us Just between the two of us O my love, goodbye O my love, goodbye

Bye bye, love, goodbye
I'll see you on the other side
Bye bye, love, goodbye
See you on the other side
Bye bye, love, goodbye

Just between the two of us Something 'tween the two of us Is more than just the two of us Just between the two of us O my love, goodbye O my love

Bye bye, love, goodbye

See you on the other side Bye bye, love, goodbye I'll see you on the other side
