

# Time Will Let You Know

Cheap Trick

Look at you and look at me  
Now what are we supposed to be  
We're so afraid of something new  
You know it's true

You turn around and then it's gone  
You can't be sure if it's the same old song  
We're so afraid of everyone  
Afraid of the sun

Please let this be love  
A love that is so true

It's all up to me  
It's all up to you  
Time will let you know  
Whatever will be  
Whatever you do  
Time will let you know  
You see your folks and all their friends  
Ain't it funny how the story ends  
You wonder why you're hanging on  
When it's gone

Please let this be love  
A love that is so true

It's all up to me  
It's all up to you  
Time will let you know  
Whatever will be  
Whatever you do  
Time will let you know

It's all up to me  
It's all up to you  
Time will let you know  
Whatever will be  
Whatever you do  
Time will let you know  
You see your folks and all their friends  
Ain't it funny how the story ends  
You wonder why you're hanging on  
When it's gone

Look at you and look at me  
Now what are we supposed to be  
We're so afraid of something new  
You know it's true
