

# Cheers To Us

Chelsea Grin

We'll all be dead some day  
So sing this song with me  
Live up tonight, right;  
Don't make me say it twice

So climb up out of that hole  
Your shame has taken it's toll  
Pick up your glass  
And drink it down, down, down

Cheers to us

Brothers and sisters  
I wrote this one for you  
You don't have to be alone  
You're not alone

So climb up out of that hole  
Your shame has taken it's toll  
Pick up your glass  
And drink it down, down, down

This life just ain't for us  
Get up, and shake off that dust  
This one's for you  
Now drink it down, down, down

This one's for you

Get up and scream with me  
Hey, hey, hey  
I wanna hear you sing  
Hey, hey, hey, hey!

Brothers and sisters  
I will always be there for you  
We're in this thing together  
So sing it with me

So climb up out of that hole  
Your shame has taken it's toll  
Pick up your glass  
And drink it down, down, down

This life just ain't for us  
Get up, and shake off that dust  
This one's for you  
Now drink it down, down, down

Cheers to us

Now's your time  
Make your choice  
Let me hear your voice  
Yeah

Here's to another day

Hey, hey, hey  
Sing one more time with me  
Hey, hey, hey, hey
