

Pledge Allegiance

Chelsea Grin

We're blinded by a dead man

We are not the future
We're just puppets
We are not the future
We'll all die as fucking lab rats

We are not the future
We're just puppets
We are not the future
We'll all die as fucking lab rats

Stop living like a puppet
I won't die a fucking lab rat!
Stop living like a puppet
I won't die a fucking lab rat!

We're all living a lie!
They are blinding minds with the face of a dead man
We're all living to die
So take control, or just fucking die

Swallow lies, and force their "Idols" down your throat
And we don't see, we live life through a blindfold

We live life through a blindfold

We're all living a lie!
They are blinding minds with the face of a dead man
We're all living to die
So take control, or just fucking die

They are blinding minds with the face of a dead man
So take control or just fucking die

They lie, they blind our minds
They lie, they blind our minds
They lie, they blind our minds
We've all been brain washed from the fucking start!

They lie, they blind
Pledge allegiance to the mad man!
They lie, they blind
Pledge allegiance to the mad man!

Pledge allegiance to the mad man!
Pledge allegiance to the fucked!

We're all living a lie!
They are blinding minds with the face of a dead man
We're all living to die
So take control, or just fucking die

We're all living a lie!
They are blinding minds with the face of a dead man
We're all living to die!
So take control, or just fucking die

We can change the future
We're not puppets
We can change the future
We won't die as fucking lab rats
