

# The Music's No Good Without You

**Cher**

Everyone was watching  
You were the freakiest thing on show  
dazzle in the crystal ball  
They all love to watch it glow  
You were the center of attention  
The eye of the storm  
A whirlwind from outer space  
Like a twister on the scene

The music's no good without you baby  
The music's no good at all  
The music's no good without you baby  
Come back to me

Mesmerize them when we danced  
Cause you sparkle next to me  
We sit along the razor's edge  
But you were crazy to be free  
I - agonize till you'll come back  
And we'll dance that close again  
I miss you boy, I really do  
Come back to me  
Come back to me

The music's no good without you baby  
The music's no good at all  
The music's no good without you baby  
Come back to me

Cause my world stopped spinning  
Nothing I can do  
So I pray that a DJ lifts my heart

The music's no good without you baby  
The music's no good at all  
The music's no good without you baby  
Come back to me

But I know you don't need me anymore  
And it's no good me dwelling on the past  
I have to live each day  
Like it was my last

The music's no good without you baby  
The music's no good at all  
The music's no good without you baby  
Come back to me
