

# Amnesia

Cherish

Ohhhhh.

Yeahhhh Yeah

Really wish i could

If only someone could unbreak my heart  
Come relieve my pain  
Somehow I could wish upon a star  
And make all of the memories go away

But my mind just keeps on going back  
And I can't help but think about  
That guy that's gone make me miss out on you  
And I can't help but remember  
Bout that sad day in September  
That day he took my heart with him when he left  
Ohhhhh

See eventually I will get through this  
But right now it seems my heart's in the way  
I apologize for the way that I treat you  
But I gotta leave you  
Unless somehow I come across a case of amnesia, amnesia, amnesia  
(to forget, to forget, to forget the heartache)  
Amnesia, amnesia, amnesia  
(to forget, to forget, to forget the pain)  
Amnesia, amnesia, amnesia.  
(and i think, and i think it'll make things better)

I gotta leave ya I gotta leave you

I tried to leave the past behind me  
But it just hurts so bad  
Ohhh  
And I tell myself please don't cry  
Let it go and let the past be the past

But my mind just keeps on going back  
And I cant help but think about  
That guy that's gone make me miss out on you  
And I can't help to remember bout that sad day in September  
When ya took my heart and just ran away! ohhh

See eventually I will get through this  
But right now it seems my heart's in the way  
I apologize of the way that I treat you  
But I gotta leave you,  
Unless somehow I come across a case of amnesia, amnesia, amnesia  
(to forget, to forget, to forget the heartache)  
Amnesia, amnesia, amnesia  
(to forget, to forget, to forget the pain)  
Amnesia, amnesia, amnesia  
(and i think it'll make, it'll make things better)

I gotta leave ya, I gotta leave you

Everytime you try to get closer to me  
I'm fallin back cause I can't go down this road again  
Memories won't go away  
Constantly in control of my life  
I don't wanna erase it all  
and forget about it all  
Ooooh Yeeahhh.

See eventually I will get through this  
But right now it seems my heart's in the way  
I apologize of the way that I treat you  
But I gotta leave you  
Unless somehow I come across a case of amnesia

See eventually I will get through this  
But right now it seems my heart's in the way  
I apologize of the way that I treat you  
But I gotta leave you  
Unless somehow I come across a case of amnesia, amnesia, amnesia  
(to forget, to forget, to forget the heartache)  
Amnesia, amnesia, amnesia  
(to forget, to forget, to forget the pain)  
Amnesia, amnesia, amnesia  
(and i think it'll make, it'll make things better)

I gotta leave ya, I gotta leave you
