

# She Loves Everybody

Chester French

Somebody call my baby  
Somebody call her up real quick  
I think I need my fix

Always around to please me  
Always around to take control  
I never feel alone  
Yeah

But you feel so clean  
Well she craves affection  
So I use protection  
And I know she loves me  
She loves everybody

Baby oh no  
(Oh yeah)  
Darling oh no  
(Oh yeah)  
Baby oh!

You're just a little girl now  
You're just a girl who misses her dad  
And all the toys that she had

Thought I could make you older  
Thought I could keep you out of harm  
But now you're caught in my arms

But you feel so clean  
Well she craves affection  
So I use protection  
And I know she loves me  
She loves everybody

Baby oh no  
(Oh yeah)  
Darling oh no  
(Oh yeah)  
Baby oh!

Now that we've made it this far  
Now that we've made a mess in the car  
You ought to give it a rest
