

Never Been in Love Before

Chicago

I've never been in love before not like this you taught me more
Hung out by myself well I lived upon a shelf and cried
'Cause I thought I could not give my pride would not let me liv
e
All my feelings disappeared

You are the lovely reason I am alive you satisfy
All my senses and you give me the confidence to grow
In a thousand different ways happy just to spend the days
Of my lifetime by your side

I want to be everything that I can
I want so much to be more of a man

I want to grow
I want to know you better
Each day I'll try to love you
'Cause I've never been in love before

You have a friend for life in me if we ever disagree
And you have to go away I will set you free with joy
'Cause your happiness is mine may our light forever shine
May you always feel free

I want to be everything that I can
I want so much to be more of a man

I want to live
I want to give my lifetime
Each day I'll try to love you
'Cause I've never been in love before
