We're Not Gonna Fall

Children of Bodom

Woah yeow

They try kicking and screaming as loud Contation break us apart
Will not control us they won't hold you down
I'm sorry, that's my knife in you!
Another day of falling down your way
Pushing and screaming cause
They thought it might be right

Неу

Take my hand and fly Will you ever be that tall Don't you be afraid We're not gonna fall

Did you think
I'd let you mix it up
Give me a reason bitch
You're gonna fuck it up

Неу

Take my hand and fly Will you ever be that tall Don't you be afraid We're not gonna fall

Неу

Do you believe in what we've got Try it, take your one shot We stand once and for all We're not gonna fall

Well you thought you had the authority To slay and kill the minority Together we stand tall Not gonna crash, not gonna fall

Did you think I'd let you mix it up Give me a reason bitch I'm gonna fuck you up It's real, into the charge

At the end we're standing up
