

Acid Broke The Spell

Chinawoman

Acid broke the spell of a lovelorn season
Acid broke the spell and I can't believe it

Woke up and to my surprise
The magic gone from your eyes
Who said there was no cure for love was wrong
Cause I found one

Acid broke the spell of a lovelorn season
Acid broke the spell I still can't believe it

My life I bowed to the muse
Resigned that I always would
The sky went pink and spring rose up like god
Over the spell of love
