

Tug Of War

Chris Crocker

This is a song about how love always wins in the end

We've been through the B.S.
Taken the bad hits, people and back stabbing.

Are love pushed right past this
We already had it
But we let them come between us

When we separated knew nothing could replace it
Nothing was the same

Until our love won a tug a war
Cause when you find the one you need nothing more

Our love won a tug a war
Cause when push comes to shove, love can't be undone
Our love won the tug of war
(tug of war)

We picked up the pieces
Went through the seasons
Not going back again

Out lasted the sadness
Now we're just glad and never let them come between us

When we separated knew nothing could replace it
Nothing was the same

Until our love won a tug a war
Cause when you find the one you need nothing more

Our love won a tug a war
Cause when push comes to shove, love can't be undone
So our love won the tug of war
Cause when you find the one you need nothing more

Our love won a tug a war
Cause when push comes to shove, love can't be undone

Our love won a tug a war

Cause we were not to let them come between us
Opened up our eyes knew nothing could defeat us
Knew all along we made it through the storm
Cause we were the only thing that kept us warm

And I know I never doubt my heart
I know I never doubt my heart
Doubt my heart

I'll never doubt my heart

Until our love won a tug a war
Cause when you find the one you need nothing more

Our love won a tug a war
Cause when push comes to shove, love can't be undone

Until our love won a tug a war
Cause when you find the one you need nothing more

Our love won a tug a war
Cause when push comes to shove, love can't be undone
Our love won a tug of war
