Love's Got A Hold On Me

Chris de Burgh

I got a light shining over me I thought this could never be, It's so amazing what I feel 'cos love - love's got a hold on me;

Up in the air walking down the street, Smile like a fool at everyone I meet, I wake in the night, I just can't sleep 'cos love - love's got a hold on me;

Too many heartaches, too many tears, Too many women, too many years, But I've got me a girl, who takes me high, All the way to heaven day and night;

Love is a dance with a different beat, And I can't stop my dancing feet, I'm as high as I can be 'cos love - love's got a hold on me;

Too many heartaches, too many tears, Too many women, too many years, But I've got me a girl, who takes me high, All the way to heaven day and night;

Love's got a hold, a hold on me, Love's got a hold, a hold on me, Love's got a hold, a hold on me,

I said love - love's got a hold - love's got a hold - Love's got a hold on me...
